

Exterior

Bow deck

A bow deck shaped as a fishing stage. Optional high deck as a casting platform is available as an option. In addition, it is equipped with a one-class large-sized IKES cum storage space with a capacity of 80 liters realized by adopting FOAMAP. In addition, a wide range of phishing functions are integrated, including a flat bow deck that can be easily worn on the ground and a bow locker that can be used as a battery space.

Bow locker

Ikesu cum bag

High deck (optional)

Deck hatch

Removable windshield

Console Box

A simple and highly functional console box that supports active fishing is centrally located. The console is equipped with a deck hatch that is convenient for storing safety equipment.

Stern deck

Stern deck with battery space on the port side and fuel tank space on the starboard side. An optional driver's seat can also be installed. Safety considerations such as handrails on both sides and self-balers with check valves are also carefully considered.
